BY-LAWS UPDATE

THE by-laws committee has completed its work on the revision to the by-laws, which had to be revised to be in compliance with the Revised Code of Washington (RCW). The RCW requires that a board of directors be a part of the club's organizational structure. The composition of the board of directors was not adequately defined in the original by-laws. Along with the necessary changes needed to be in compliance, the committee reviewed the entire document and made several changes, with the guiding principle being to streamline and reduce bureaucracy. The goal being to keep the club as informal as possible, but still provide the means to address club business—both known and anticipated. Redundancies and vague wordings were addressed.

THE complete text of the original by-laws was printed in the November issue of the *Penwicle*. The proposed revised by-laws are printed on page 9 of this issue and will be presented to the club for a vote at the February regular meeting. A limited amount of time will be available for discussion at that meeting, since we will have an entertainment program. It must be noted that there has been adequate time for the membership to read the original version and submit comments to the committee. The vote in February will be to approve or disapprove the revised by-laws. If the proposed by-laws are rejected, the committee will reconvene to address the concerns of the member-

WINTERFEST

Friday - Monday, February 12th - 15th

Contact: Bert Cripe (895-4299)

At press time 3 rooms and the large cabin were still available.

This winter the event will be held at Rainier Overland Lodge near Ashford on the road to Mt. Rainier National Park. The Lodge consists of seven rooms, three specialty rooms, and two cabins—all non-smoking. It can accommodate 30 people with more accommodations available next door at the Nisqually Lodge.

Room rates vary from \$45 to \$70 with the cabins going for a little more. The cabins have kitchens, full baths, and wood/pellet stoves.

Reservations should be made as soon as possible by calling the Lodge at (360) 569-0851. They accept Visa, MasterCard, and Discover Card and require 48 hours notice to cancel a reservation, should that be necessary.

The facility's restaurant can be opened for our use if we make prior arrangement. Breakfasts and dinners will be buffet style. More on the menus later when the information is made available to us.

For those new members and others who may have forgotten, Winterfest is a time to celebrate the beauty of the chilly, dark season by getting out into the snow to ski, snowshoe, and just play. Additionally, we gather in the evenings around the fire to relate our tales of the day's activities, get acquainted with new faces, and just have a good time. To make this possible, the dining room will be available for our use. Many bring hors d'oeuvres and wine or beer to share in the evening with friends.

Rainier Overland Lodge is located in the heart of the Mount Tahoma Trails system (the office is at the lodge) and Mt. Rainier National Park is just a few miles to the east. If you would like to try snowshoeing this would be a good opportunity to borrow or rent a pair.

CROSS COUNTRY SKIING IN YELLOWSTONE

February 28th to March 4th

Contact: Alice Savage (638-2597)

As of the December meeting there was still room for one more on this trip - contact Alice, there may still be room or someone may cancel out.

For this five day package, a snow coach will pick us up at West Yellowstone and transfer us to Canyons Skiers Yurt Camp situated in the middle of Yellowstone Park, a quiet and peaceful setting with no crowds.

The camp consists of two yurts, which serve as the kitchen, dining, and social center, and is surrounded by six, two person tent cabins heated with propane. The outhouse is heated (are you listening Don Paulson) and there is a sauna. Hot water will be provided for showers.

Cost is \$688.25 per person, which includes all meals, lodging with bedding, ski guides, and use of the snow coach to take us to remote areas for skiing. I plan on driving to West Yellowstone but one can fly to Bozeman, Montana where convenient bus service will take you to West Yellowstone. Some of the animals we can expect to see are bison, elk herds, trumpeter swans, coyotes, and possibly a fox or two. There will be a full moon at this time that will offer lovely night skiing.

After the yurt camp, we plan to spend a night at Old Faithful Snow Lodge to ski and check out the more concentrated thermal activity surrounded by snow.

WHITEFISH SKI EXTRAVAGANZA

March 3rd through March 8th, 1999

Contact: Pat Gleason (373-2131)

As of the December meeting two spots were still open. Payment in full is due at the January 11th meeting.

PAT is organizing a 1999 Whitefish ski outing. PWCers will catch the Amtrak in the early evening of March 3rd at Ed-

monds and travel via sleeper car to beautiful Whitefish, Montana. The package includes three nights accommodations at the newly remodeled AlpenGlow Motel. Skiers can enjoy four days on the slopes, boarding for the return trip the evening of March 7th. Three days lift tickets and transportation to and from the train depot are included. Big Mountain has recently lit their cross-country course, so skiers can enjoy gliding through the winter wonderland along moonlit trails.

THE price is \$361 per person (based on four person occupancy and 25 participants), \$386 per person (based on four person occupancy but less than 25 participants). For those not requiring lift tickets, deduct \$105 from the price.

THIS has been a very popular outing in the past, with PWCers giving rave reviews to the quality winter recreation and telling tall tales of the fun and camaraderie on the train and on the slopes.

A "BIG" SURPRISE

by Alice Savage

It was a dark and stormy night, actually it was the following night after a big wind storm blew into the Puget Sound area, when I had this big surprising experience.

My home is in a wooded area, but like everywhere else in Kitsap County more houses are being built with more trees cut which disrupts the wildlife from their forest homes. Deer wander through here, frequently attracted by the small scrubby apples I throw out to them from my fruit trees. Raccoons show up also when the fruit gets ripe and are a nuisance climbing the trees and breaking off branches. I even saw a coyote sneak into the yard to grab an apple, and one time a mother otter moved in under my house and produced three babies. The fruit trees and garden areas are surrounded by a fence of wire netting to keep out deer or they would eat everything in sight.

RECENTLY, I placed a large bucket of apples by the door making it handy to toss out apples when the deer came by. One night I woke up and heard something rattling the apple bucket. Immediately, I thought a raccoon had found it and quietly went to the door, switched on the outdoor light and yanked open the door. Well, this was no raccoon but a huge black bear standing there right by the door. Needless to say I was startled and scared but so was the bear and he took off in a hurry. I could hear him crashing through the wire fence which would mean a repair job. It took quite sometime to settle back to sleep after this experience.

BEARS have been sighted several times around the neighborhood. In October I was away for a few days and came home to find a portion of the wire fence torn down. Figuring no deer would have done this, I checked an apple tree and found long claw marks on the trunk. It was apparent he was after apples. It is interesting to see the wildlife around here but I would just as soon the bear stayed away.

ROAD CONDITIONS

HOH ROAD - Heavy rain and melting snow have caused a washout that closed the Hoh road 3/4-mile inside the Park boundary on 12/13.

Nearly all of one lane has been either washed away or undercut. The remaining lane is closed to traffic until further notice. The Park plans a detailed evaluation and will reopen the popular road as soon as they can.

The Hoh road was closed during the winter of '95-'96 after a fall storm washed out 1000 feet of road at the Park boundary. The river likes to meander, and cuts new and changing channels in its wide gravel bed.--Ranger, 12/14.

PARKING AT MONDAY MEETINGS

by Tom Banks

THE Kitsap Unitarian Universalist Fellowship has pointed out a few safety items, and has made some suggestions, about parking for our Monday night meetings.

To alleviate parking congestion, members and guests are asked to try to carpool from the Fred Meyer parking lot on Riddell Road (about a mile from the Fellowship). This can be easily accomplished by simply pulling into the parking lot off Riddell Road, and looking for a ride!

THE upper parking lot at the Fellowship belongs to the Learning Tree preschool. The spaces on the south half, and the two spaces closest to the northeast corner, are reserved for Learning Tree clients, who come and go up until 11 o'clock at night. We are welcome to use the spots on the west side (along the road) and on the north side.

DUE to fire regulations, parking on the driveway can be on one side only. In the main parking lot only regular, lined, spaces can be used (i.e., no "creative" parking, which could cause access problems).

SINCE parking on Perry Avenue can be hazardous, everyone is encouraged to "double up" and drive from Fred Meyer. Pull into the south side of the Fred Meyer parking lot before the next meetings, and see who's there for you to carpool with! Make new friends!

OPINION

by David Cossa

OUR club is in the process of revising its by-laws. At a recent by-laws committee meeting I brought up that the by-laws called for an environmental issues committee and suggested that one actually be formed and included in the revised by-laws.

I WAS informed by several interested members that, to the contrary, this committee was to be deleted from the by-laws in order to avoid "rabble rousers" with a cause to factionalize our club.

SO BE IT. I had hoped that the club could promote all organized forums or debates on issues concerning recreation on public lands. For instance, Olympic Park officials occasionally hold meetings in various Puget Sound cities on various park issues. Since several of our members (Doug Savage, Jon DeArman, and Tom Banks) have a good rapport with high ranking park officials, perhaps they could persuade them to give us an annual report on park issues and plans.

EVERYONE benefits from such a forum. Park officials get desired public input and learn our concerns and concepts. We get the chance to express our concerns on park issues and come away feeling that our opinions are at least valued.

BUT apparently some members would find this interchange to be too stressful so club neutrality is in order.

HOWEVER, I would like to point out a double standard by those professing club neutrality: wolf re-introduction proponents were allowed to address our club on an extremely factional issue. Although I had no objection to their appearance and found that meeting to be informative, I feel that if club neutrality on issues is truly desired, such groups should not be allowed to address our club. Let's practice what we preach.

Members are welcome to submit their opinions for publication in the Penwicle - Editor
