## Mount McKinley Adventure

Presented by: Mike and Elaine Raymond  
Monday, April 11, 7 pm

In May of 2004, Mike and Elaine Raymond lived out their dream to climb Mount McKinley, at 20,320 feet, the highest mountain on the North American continent. Their adventure is retold through a visual presentation which shows the beauty and challenge of ascending a truly awesome mountaineering objective.

Mike and Elaine have been mountaineers for several years and had trained hard for the chance to confront the cold, the wind, and the sun of the high alpine. Their story will show you the strategies, techniques and difficult work of a high mountain expedition.

Beginning in Seattle, their trip was an exercise in flexibility, determination, and maintaining a good sense of humor despite the pain, fatigue and disappointments.

## April is National Volunteer Month

I do not believe that my role as President is the most important one in the PWC, just perhaps one of the more visible. I believe that everyone who does anything to help this club along deserves to be recognized. From trip sponsors, to those bringing cookies to the meetings, to those who open their homes for gatherings, we all do what we can according to what time, energy and talents we have available to give.

The PWC, as you know, is entirely run by volunteers. Every volunteer, no matter how large or small their contribution, is an integral and important part of this organization. At this time I would like to thank every member of the PWC for their involvement, you are what makes this club great!

Thank you all for your involvement and volunteering!

With that being said, I would like to take some time to encourage those who may wish to get more involved, but do not know how to start. There are many opportunities to get involved, such as (but not limited to):

- Trip / outing sponsors
- Slide show presenters
- MAP meeting and Potluck hosts
- Newsletter folders
- Cookie bakers
- Organizers and 'Idea' people
- New member 'meeters and greeters'

(continued on page 5)

## Outings

### A Word About Outings

All PWC outings and other activities are open to anyone, but if you enjoy our company and what we do, we would like you to become a member.

The persons sponsoring trips should not be considered instructors or leaders. If you are unsure of your abilities, discuss the trip thoroughly with the organizer. Each participant is responsible for his or her own comfort and safety on any outing. Please always carry the 10 essentials.

### Pet Policy

Please leave pets at home when attending PWC outings unless the trip is specifically listed as welcoming them.

### Please Call Early

As a courtesy to the sponsor of an outing in which you are interested, please try to call at least two days before the trip for single-day outings, and as soon as possible for overnight outings. This allows the sponsor time to make necessary arrangements, or alternate plans should a trip be canceled for some reason. Your consideration will be greatly appreciated.

## April is National Volunteer Month

(continued from page 1)

We have such a wonderful group of people with such diverse interests and talents to offer. We have kayakers, cyclists, and photographers; flower and plant identifiers, rock climbers and mountaineers. We have world travelers, cookie bakers, and those with a penchant for organizing. We have great 'idea' people that can offer their creativity to the group. Being able to draw from a more diverse pool of members will allow us to offer more varied activities and presentations. My hope and goal is to see that diversity reflected in what we offer as a club.

When I became Vice President in 2003, I felt strongly that I should start giving back to the club that I was getting so much from. The way I chose to do this was to start organizing hikes. Boy, was I nervous! I had no idea what to expect or how to go about it. What if something went wrong? Would I be capable of handling any situation? Well, I sought out the advice of members who were experienced in organizing trips, and I jumped right in! I've had some great trips and met some great people with no great catastrophes to speak of. I quickly learned that everyone on my trips had their own skills to bring and rarely did I need to 'lead' anyone.

We as a rule, do not 'lead' outings, but only offer an opportunity for people to gather in the wilderness. It is similar as with a friend, "Hey, I'm going hiking this weekend. If you want to come, give me a call." We are 'sponsors' and 'organizers', but not leaders. We do have some basic responsibilities as a sponsor – such as checking the current conditions of the location we are going, having a basic plan for the day, etc. But other than that, people are encouraged to be responsible for themselves and to know their limits and abilities as they join you for an outing.

For those who have an interest in getting more involved, here a few incentives to help give you that little nudge:

- If you sign up for an outing or event, your name is published in the Penwicle. It's really cool to see your name in print.
- At every General Meeting, you may put your name in for the door prize once more for every time you have sponsored an outing or event at your home over the past month.
- If you would like to sponsor a trip, but would like a little extra support in doing it, employ a buddy system tactic. Approach a more experienced organizer to see if they will co-sponsor a trip with you.
- The PWC will be conducting a short seminar on "How to Sponsor a Trip" at 6:30 pm before the May General Meeting. Anyone wanting more information on the ins and outs of trip organizing is encouraged to attend.

Maybe you have no interest in sponsoring an outing. That's okay. There are plenty of other avenues for your talents and interests, from hosting an event at your home to helping meet and greet new members. Or, maybe going on a hike every once in a while is all you have time for right now! That's okay too – we value your involvement no matter how large or small.

Once again, to everyone, thanks for being a part of the PWC. We couldn't do it without you!

Molly Deardorff, President

### Washington Coast Clean-up

Volunteers are needed to help enhance and preserve one of Washington State's prime resources, it's Pacific Ocean beaches from Tokeland to Cape Flattery. The Sixth Annual clean up of Washington coast beaches will take place during the April 23, 2005 weekend. Last year, 500 volunteers removed 24 tons of marine generated debris from coastal beaches between Ocean Shores and Cape Flattery; 3 tons from the Makah Reservation, 7 tons from the North Beach area (Ocean Shores to Moclips) and 14 tons from the Olympic National Park beaches. The project this year has added the section of beach from Tokeland to Westport. Each winter ocean storms wash ashore a new shipment of flotsam and jetsam including ropes, plastics, nets, tires and a lot of miscellaneous. During the April 23, 2005 weekend, many volunteers will come for just the one day, April 23. Many other dedicated volunteers will spend 3 or 4 days on remote beaches in Olympic National Park.

In the past, some volunteers have put together a team of their friends or co-workers to clean up their favorite beach. Some beaches are easily accessible for younger people while most of the remote coast requires more skilled volunteers. Your support for this project is appreciated. For information online, visit [www.olympiccoastcleanup.us](http://www.olympiccoastcleanup.us) For additional information call project coordinator Jan Klippert, 206-364-2689.

### Eatonville Bakery

The word from Eatonville is that our favorite bakery stop on the way to Mount Rainier will be reopening sometime this spring in the same building, under new ownership.

### Copper Creek Trail

By: The Monday Hikers (10/4/04)

Hi Hikers,

We checked out a new trail this week! It is the Copper Creek Trail. The Washington Trail Assn. has been working on it for some time. You go to the head of Lake Cushman, across the causeway past the Dry Creek trailhead for maybe another two tenths of a mile. There is a wide place in the road where a 4 X 4 vehicle track starts uphill. Park there. There is a sign there on the downhill side of the road marking the Shady Lane Trail that goes down by the Skokomish River. Walk back down the road you came up for a hundred feet or so and there is a small sign on the uphill side marking the Copper Creek trailhead. It is a good quality trail that has required a lot of labor. There are two nice flattened log bridges with a little cable to hold on to and several hundred log and rock steps. The footing is secure, but you are on a stairway most of the way. It is a short hike with an elevation gain of 2,310 feet. I measured 3.3 miles round trip using a GPS track on TOPO. There is a ridge loop trail on top and it is laid out but not quite as nicely finished like the rest of the trail. The ridge is quite narrow and has huge trees growing on it, so the views are quite obstructed. However, we think that we accurately identified Copper Mountain across the Skokomish River Valley, as well as Lightning Pk. and Timber Mountain closer to us. We had lunch on the ridge. Those who finished the hike early went on down the Shady Lane trail to check out the flats where the elk often graze by the river. A stop at Hunters Farm over compensated our small caloric deficit. That locally made ice-cream "is to hike for"! Happy Hiking!

Please help PWC stay on good terms with the church.

Members are expected to practice responsible environmental stewardship and must accept that there are dangers and a risk of injury in most outdoor activities.
