April Presentation:

Earth is a Solar Powered Jukebox

Monday April 9th, 7pm

By Gordon Hempton

The Soundtracker

The more sunlight that reaches the surface of the Earth the higher the decibel level of that natural location provided that plant leaves are present to capture the sun's energy and cycle it into the bioacoustic system. Join internationally acclaimed acoustic ecologist, Gordon Hempton, as we listen to sunrise circle the globe, hear snow melt, whales sing and discover that the Earth is music, clear enough to hum all day. And let's re-examine our widely held belief that the human ear evolved to hear human speech. We will listen to nature sounds that fit neatly into our peak hearing sensitivity (2 kHz-5 kHz) and speculate about the evolutionary consequences of detecting these sounds over great distances. During modern times, with our global environmental crises, is it enough to hear ourselves or must we, as a species still subject to the laws of survival, once again listen to what the Earth is telling us. This audio-visual presentation will change the way you look and listen to the world around you.

ONE MAN'S SEARCH FOR
NATURAL SILENCE IN A NOISY WORLD

ONE SQUARE INCH OF
SILENCE

GORDON HEMPTON
and JOHN GROSSMANN

Acoustic ecologist Gordon Hempton has circled the globe three times in pursuit of the Earth's rarest natural sounds. His sound portraits which record quickly vanishing natural soundscapes have been featured in People magazine and a national PBS television documentary, Vanishing Dawn Chorus, which earned him an Emmy. Hempton provides professional audio services to media producers, including Microsoft, Smithsonian, National Geographic and Discovery Channel. Recipient of awards from the National Endowment for the Arts and the Rolex Awards for Enterprise, he is co-author of One Square Inch of Silence: One Man's Quest to Preserve Quiet, (Free Press/Simon & Schuster, 2010). Gordon Hempton speaks widely on the importance of listening.

Bring cash or checks this month as Mr Hempton has generously allowed the PWC to sell his book "One Square Inch Of Silence" and his DVD "The Soundtracker" to help offset the speaker's fee.

- **HELP!!!!** Steve really needs your help with pictures for the Penwile! Paul Dutky has a pretty cool way to share pictures via Dropbox – but if you don't send them, then I have to hunt far and wide to find pictures for the next edition. Please take pictures and send them to Paul – he can send you instructions on how – it couldn't be easier! Please contact Paul for more info at pdutky@gmail.com. Putting the Penwile together is a lot faster when I have many pictures to choose from!

Outings

A Word About Outings

All PWC outings and other activities are open to anyone, but if you enjoy our company and what we do, we would like you to become a member. The persons sponsoring trips should not be considered instructors or leaders. If you are unsure of your abilities, discuss the trip thoroughly with the organizer. Each participant is responsible for his or her own comfort and safety on any outing. Always carry the 10 essentials.

Please Call Early

As a courtesy to the sponsor of an outing in which you are interested, please try to call at least two days before the trip for single-day outings, and as soon as possible for overnight outings. This allows the sponsor time to make necessary arrangements, or alternate plans, should a trip be canceled for some reason.

Pet Policy

Please leave pets at home when attending PWC outings unless the trip is specifically listed as welcoming them.

Carpool and Ride Sharing

We strongly encourage carpooling and ride sharing as a way to reduce impact to trailheads, minimize our environmental footprint, and reduce costs. Please be considerate to your drivers, including situations when you ride with different drivers in each direction. The amount you contribute to your driver(s) should reflect the distance driven, the cost of gas, and tolls/parking fees – short trips might be \$5 per person, long trips could be considerably more.

The WEBSITE: A Source for Outings

Our PWC Website calendar is at:

<http://www.pwckitsap.org/content/117-pwc-calendar.html>

If you don't see something that interests you in this newsletter, check the website for additional trips and last-minute trips. Or, if you are leading an outing that was planned after the deadline, use the website to post the information. This can now be done in THREE ways: You can fill out the form online; you can email or call the info directly to the Webmaster, Jay Thompson, at pwcadmin@pwckitsap.org or 360-307-0037; or you can email or call Paul Dutky at pdutky@gmail.com or 360-479-2683 to get the outing listed on the PWC Calendar online.

San Juan Islands Kayaking

Friday, Apr 20-22
Contact: Paul Dutky at 360-479-2683, or
email: pdutky@gmail.com

This three-day kayak camping trip is an SK Class III-IV paddle. We'll drive up to the launch on the first day of paddling, and return home the last day of paddling.

Day 1: Paddle north from Washington Park near Anacortes along the east side of Cypress Island. We'll stop at either Cypress Head or Pelican Beach for lunch, and then continue north to our camp at Doe Island Marine State Park on the south side of Orcas Island. This is the longest paddle day at 12.2 miles, but has an assist flood current the entire afternoon. We'll visit the cliffs on the northwest side of Cypress before heading across Rosario Strait in a tight group.

The dock at Doe Island was destroyed in a storm and has not yet been rebuilt, so the park is "closed." I expect this means we'll have the place to ourselves, since we don't need a dock. The folks at Body Boat and Blade don't feel there will be a problem camping there. If conditions aren't suitable to cross Rosario, we'll stay on Cypress. Day 2: Paddle from

Outings

Doe Island to James Island, ebb assist all morning. 9.5 miles.
Day 3: Paddle back across Rosario Strait at noon, slack water, to our cars. Currents are minimal all afternoon. 5 miles. Significant winds on our 4-mile crossings of Rosario Strait will increase the difficulty of the paddle.

Limit 12 paddlers - contact Paul for info.

Tony Abruzzo, Bob Brown and Rob Waldorf are leading trips to different destinations this year, collectively termed "Sunshine Trips" because these areas typically have nice weather. Some trips require permits and advance planning, so please read below, and consult the PWC Website calendar for more details.

DESTINATION: Lake Cle Elum (Washington)

DATE: Jun 11 to 17

LEADER: Tony Abruzzo; 360-871-5754; or

DESTINATION: Northeastern Washington area

DATE: Jul 16 to 22

LEADER: Rob Waldorf; 360-792-1017; or
email: robwaldorf@comcast.net; cudave@comcast.net

Outings

Planning still ongoing – However, this trip will include camping, hiking, mountain biking, etc.

DESTINATION: Bend area (Oregon)

DATE: Aug 6 to 12

LEADER: Bob Brown; 360-569-2878; or

Email: skipatrol10@hotmail.com

This is in the lake country south of Mt. Bachelor, north of Crater Lake. Lots of kayaking on inter-connecting, salmon-filled lakes, Newberry Crater National Monument.

DESTINATION: Pryor Mt. Wild Horse Refuge (Bridger, Montana) and Black Hills (Hill City, South Dakota)

DATE: Pryor - Sep 11 to 14; Black Hills - Sep 15 to 21

LEADER: Bob Brown; 360-569-2878; or

Email: skipatrol10@hotmail.com

Pryor Mountain is about 30 miles from Bridger, MT. At 9,000 feet elevation, the campsite is at an old homestead on a large, grassy plateau where several herds of wild horses roam freely. Camp and walk among them as they migrate across the pasture through the day. High clearance vehicles are highly recommended. The Bighorn, Beartooth, Absarokee, and Wind River Mountains frame the scene. If you have never visited the Black Hills in South Dakota, you have not experienced one of the most beautiful geologic anomalies in North America – a granite intrusion in the otherwise flat Great Plains, with many national parks and monuments, and Custer State Park with its buffalo. This trip will include riding the intricate network of improved bike trails. Drive across the Bighorn Mountains and/or the Bear Tooth Highway (above 10,000 feet), or visit Devils Tower, on this trip for an added experience.

Trip to Nepal with Brian Steely

This is a visually stunning part of the world and one of those experiences of a lifetime.

Please note: This is not a commercial endeavor on Brian's part and Brian is only a person of contact. All participants will be making their own arrangements for flying to Nepal and back, and dealing with the Nepal agent. The agent, Dipak Dhamala, is a personal friend of Brian's, and has arranged his previous trips. For itinerary and details, contact Brian.
